The Giraffe with the Long Neck

Verse 1

The giraffe has a neck so tall,
It stretches high above us all.
She chomps on leaves from the tallest tree,
Munch, munch, munch — so happily!

Chorus

Oh, giraffe with your neck so high,
You tickle the clouds as they float by.
You peek at the sun with a golden glow,
Way up where the breezes blow.

Verse 2

Her spotted coat shines bright and bold,
A pattern of brown and yellow gold.
She bends down low, then rises tall,
Her neck's like a ladder — the longest of all!

Chorus

Oh, giraffe with your neck so high,
You tickle the clouds as they float by.
You peek at the sun with a golden glow,
Way up where the breezes blow.

Bridge

When raindrops fall, she shakes her head,
And peeks above to see the sky turn red.
Rainbows dance and colors gleam,
A giraffe's life is like a dream.

Final Chorus

Oh, giraffe with your neck so high,
You tickle the clouds as they float by.
You peek at the sun with a golden glow,
Way up where the breezes blow.

Outro

So if you see her strolling by,
Look up, look up, and wave "Hi!"
