## Slow Down, Little Turtle

### Chorus

Slow down, little turtle, take your time  
Cruisin' through the water, feelin' so fine  
Sun on your shell, breeze in your face  
Movin' to the rhythm, at your own pace

### Verse 1

Under the waves where the seaweed sways  
Little turtle glides through sunny days  
No need to hurry, no need to race  
Just follow the tide to your happy place

### Chorus

Slow down, little turtle, take your time  
Cruisin' through the water, feelin' so fine  
Sun on your shell, breeze in your face  
Movin' to the rhythm, at your own pace

### Verse 2

Friends with the fish, say hi to the crab  
Chillin' with the dolphins, feelin' real fab  
Ocean is the dance floor, sky is the light  
Groovin' like a reggae star all through the night

### Chorus

Slow down, little turtle, take your time  
Cruisin' through the water, feelin' so fine  
Sun on your shell, breeze in your face  
Movin' to the rhythm, at your own pace

### Bridge

Ridin' on the current, goin' where it flows  
Feelin' irie vibes wherever he goes  
Don't worry 'bout tomorrow, live for today  
Turtle knows how to ride the waves his way

### Chorus

Slow down, little turtle, take your time  
Cruisin' through the water, feelin' so fine  
Sun on your shell, breeze in your face  
Movin' to the rhythm, at your own pace

### Verse 3

Moonlight shimmer as the night rolls in  
Turtle's still smilin', wearin' a grin  
Stars in the sky, calm in his heart  
Dancin' with the ocean, right from the start

### Final Chorus:

Slow down, little turtle, take your time  
Cruisin' through the water, feelin' so fine  
Sun on your shell, breeze in your face  
Movin' to the rhythm, at your own pace

### Outro:

Slow down, little turtle... just ride the wave...
